Task-2

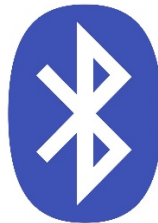

1.USB Connection (Wired)

2.Wifi Connection (Wireless)

3. Bluetooth Connection (Wireless)

Task-3

Connection Interface

Usb

Wifi

Bluetooth

Advantage

Fast and reliable connection

Wireless and convenient for
multiple devices

Easy Wireless connection without cables

Disadvantage

Requires a physical cable

Requires a wifi network

shorter range and generally
slower than Usb

Task-4

Device: Printer

Method : USB Cable

1. Turn on the printer and the computer
2. Take a USB printer cable (USB type-A to USB type-B cable)

3. Connect the USB type-A end to the computer and the USB type-B end to the printer
4. Wait for the computer to detect the printer automatically
5. If required, install the printer driver/software provided by the manufacturer
6. Open settings – bluetooth&devices – printer&scanner on windows
7. Check that the printer appears in the list
8. Select the printer and choose print and test page to check the connection
9. The printer is now ready to print document and photos
